Finding Your Colored Brain(1 Day)

• Program Overview

You are efficient and highly skilled, but stumbled over people management, and building a good professional relationship with co-workers. You find it hard to influence others and communicate effectively

You are ready to perform but find difficult to actualize your full potential, as though a mismatch in what you have and what you have to give. You find difficult to boost your, or your team members' peak performance

You aspire to build an A team. But challenges in synergize this diverse, multi-talented team members to build the momentum towards the A team. You spend way to much time managing people issue than the actual work People is human capital. People skills is the currency to trade, grow and expand this capital.

 Colored Brain is the scientific tool explais how we form and operate within our reality, which is the limiter. It uncovers the Genetic - nurtured mental strength in us, unfolds our potential and enhancing our flexibility in communication within team. This bring the team away from the danger zone and moves towards the peak performance team

• Course Objectives

By the end of the programme, participants will be able to:

- Discover and Recover your potential neuro-scientifically. Colored Brain Psychometry profiling allows you to understand your genetic Brain Strength and Learned Strength, and take necessary action to actualize your BEST SELF Identify
- Communication Danger Zone among the co-workers, team-mates, and the organization. Expand the Circle Of Tolerance (COT) and response Intelligently, move towards Motivation Zone and Cooperation Zone. This builds the greatest team Synergy and team Dynamic Understand the Mental Flexibility of the team
- allow you to Embrace the strength and leverage the weakness of the your team, mobilize them to be at their Best Performing Ability. This Build Peak Performances
