INFORMATION

CULTURAL ENCLAVE

The myriad sites within the Cultural Enclave define the history of George Town in richness and variety. Within the enclave, you will find the sites that span the breadth and depth of the multicultural melting pot that make George Town what is it today. From the Street of Harmony to clan kongsis and associations, this is the place that begs to be explored.

CLAN JETTIES

Built by the clansmen of olden days, the clan jetties were segregated into distinct communities of Chinese people that arrived in George Town in search of a better future. Denoted by the clan surnames such as Chew, Tan and Lee among others, the jetties were traditionally occupied by people of that surname and the descendants of which still occupy the homes which line the jetties to this day.
