

Team Development : ATV Challenge and Art

Overview

Teams are an important building block of successful organizations. Whether the focus is on service, quality, cost, value, speed, efficiency, performance, or other similar goals, teams are the basic unit that supports most organizations. With teams at the core of corporate strategy, your success as an organization can often depend on how well you and other team members operate together. How are your problem-solving skills? This program is designed with a combination of indoor (60%) and outdoor (40%) learning and development activities.
