# Unlocking Innovation Through Lego® Serious Play®

## • Program Overview

This immersive two-day workshop leverages the LEGO® SERIOUS PLAY® methodology to enhance creative thinking and problem-solving skills, fostering innovation in a collaborative environment. Participants will engage in hands-on activities to build and share their ideas using LEGO bricks, gaining insights and developing strategies to tackle real-world challenges.

## • Learning Objectives

By the end of the course, participants will be able to:

- Apply creative and adaptive thinking techniques to develop innovative solutions that respond to changing environments.
- Leverage the iterative nature of the LEGO® SERIOUS PLAY® methodology to enhance team collaboration, foster open communication, and build shared understanding.
- Utilize both individual and shared-level thinking to visualize, explore, and solve complex business problems.
- Develop actionable strategies and prototypes for addressing real-world challenges, integrating multiple stakeholder perspectives and interdependencies.

## • Who Should Attend

Middle Managers and Staff of respective departments

## • Methodology

The workshop employs the LEGO® SERIOUS PLAY® methodology, which involves:

- Hands-on LEGO building activities
- Storytelling and reflection sessions
- Group discussions and collaborative problem-solving exercises
- Interactive and experiential learning techniques
